# Rising Stars 300

Back 300 mid creators on the top's terms to earn half a top by 11.11

> *น้ำขึ้นให้รีบตัก*
>
> When the tide is in, hurry and scoop the water.

**PROBLEM**

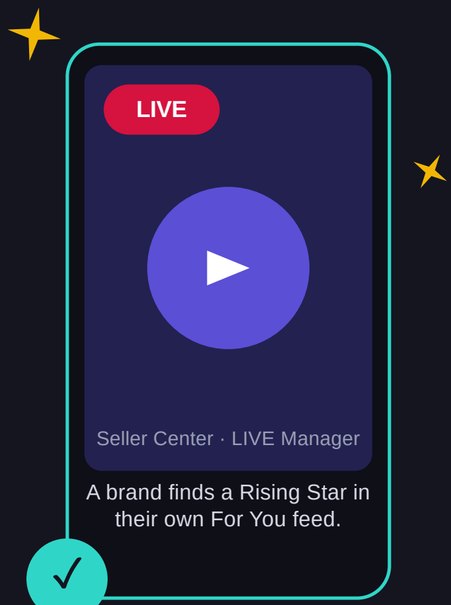

Top 100 are booked solid; 70% of mid creators have no deal.

**BET**

Back the best 300 mid creators to earn half a top.

**PROOF**

A dated rollout with go/no-go checkpoints, not a forecast.

A brand finds a Rising Star in their own For You feed.

**#RisingStars300**

*Turning idle mid-tier budget into booked 11.11 GMV*

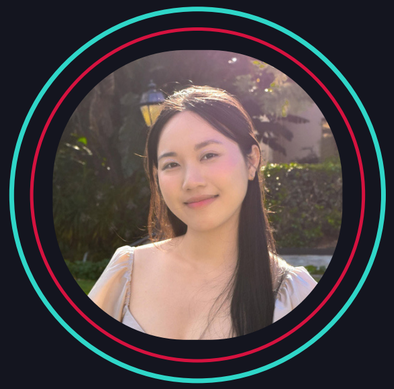

**25 OCT → 12.12 · THE PLAN**

1. **1 · THE GAP** — Where's the budget stuck?
2. **2 · THE REFRAME** — Who gets funded first?
3. **3 · SAME TREATMENT** — How much, to whom?
4. **4 · BRAND JOURNEY** — How do brands find them?
5. **5 · MEASURING SUCCESS** — How do we know it worked?

Data, the clickable prototype, and the metrics that prove it worked

01 · THE GAP

# Big brands have booked the top and mid creators sit idle, but the middle is not one group.

| Tier | Creators | Traffic | Live GMV | GMV per traffic point | Slots sold 4 wks out | Attractive deal |
|---|---|---|---|---|---|---|
| **Top · top 1%** | 100 | 40% | 50% | **1.25** | 50% | Yes, brand-bought |
| **Mid · next 9%** | 900 | 35% | 35% | **1.00** | 30% | ~30% |
| **Best 300 of mid** ~1.10× to rank [M] | 300 | inside mid's 35% | | **> 1.00** | measured at the rehearsal | |
| **Long tail · 90%** | 9,000 | 25% | 15% | **0.60** | <20% | ~20% |

## The buyers are waiting

~80% of SMB sellers can't get a top slot and have no fallback, and they hold ~30% of their budget unallocated [C §02, T2]. Most Thai e-commerce businesses name finding influencers as their main affiliate obstacle [E].

**+100%**

To hit +50% with the top flat, the other half of live GMV must double [D 50 ÷ 50]. The middle has room: ~70% of mid creators have no deal [D].

C case (Table 1, §02) · D GMV share ÷ traffic share · E Statista, App. A6 · M modelled, to be ranked

02 · THE REFRAME

# Run 11.11 as a marketplace: invest in creators as partners and sell them to brands as customers.

**SUPPLY · CREATORS**

**Partners we invest in**

The best 300 mid creators get the top's terms: vouchers, co-funding, first place.

Chosen from the on-time half, on sales per traffic point.

**TIKTOK SHOP**

**Matchmaker + funder**

Matches creators to brands in 9 tools sellers use, and pays only for lives that happen.

Affiliate Center already recommends by product fit [E]

**DEMAND · BRANDS**

**Customers we sell to**

We show brands a creator selling at the moment they hear 'sold out'.

60% of Thai live shoppers buy for discounts [E]

**Half-a-top hypothesis: on the top's terms, each of the best 300 mid creators can sell half what a top creator does (฿1 → ฿0.50); time, not talent, closes the rest [M].**

**Cohort 1 · Top 100**

Ceiling to reach. No change, so anchor brands keep their reach.

**Cohort 2 · Rising Stars 300**

Treatment: best 300 of the 450 who go live on time [D], on the top's terms.

**Cohort 3 · Everyone else**

Baseline: 600 mid + 9,000 tail via Open Collaboration; ranks 301–450 = bench.

C case · D our arithmetic · E TikTok help page; Decision Lab, App. A6 · M our selection rule

03 · SAME TREATMENT AS THE TOP · 50/25/25 BUDGET

# Top treatment, no top slot needed: 300 Rising Stars get the top's terms, each aiming to sell half what a top does.

## Each lever: vouchers and subsidy

Today [C §03]

11.11 plan

Top 100 · Rising Stars 300 · Mid + long tail

**Anchor contract:** the top keeps ≥50% of vouchers, in writing.

## Suggested Resource Allocated per Creator (Resource = Vouchers + Subsidy)

| Group | Creators | Budget | Per creator |
|---|---|---|---|
| Top | 100 | 50% | 100 |
| Rising Stars | 300 | 25% | ~17 |
| Everyone else | 9,600 | 25% | ~0.5 |

Per creator: top = 100 [D]. A Rising Star gets ~17, a sixth of a top, on the same terms; everyone else drops from ~1 to ~0.5.

## Choosing the 300

1. Rank 900 mid by GMV per traffic point
2. Keep the 450 who go live on time [C]
3. Top 300 = 1 in 3 of mid [D]
4. Ranks 301–450: bench

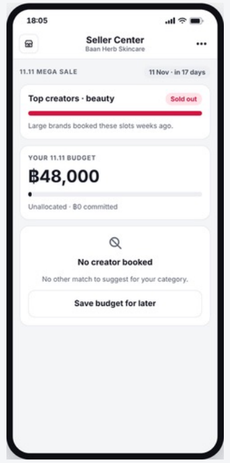

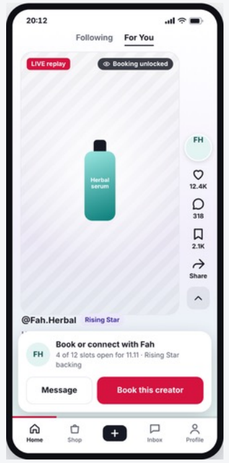

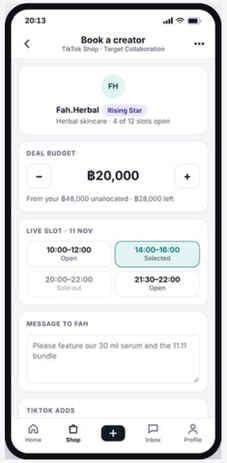

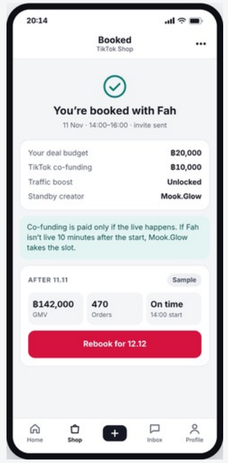

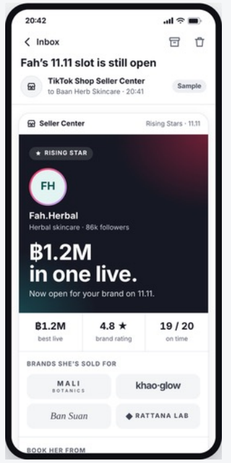

**Why 300:** mid must go 35 → 70 for +50%. Even if the other 600 sold nothing, 300 at half a top (0.25 each) make 75. Floor: 280 [D]

**The brand pitch: no top slot? Get the top's treatment anyway:** same feed priority, same 1:1 co-funded deal (up to ฿10,000, after the live) [M], for a smaller commitment. Idle SMB budget (~30%) goes to work [C T2].

C case (§02–03, Tables 1–3) · D budget (share ÷ creators) ÷ (50% ÷ 100); sales, prior campaign = 100 · M team rule

04 · THE BRAND CUSTOMER JOURNEY

# Stuck brands meet a Rising Star in their own For You feed.

| Brand's Pain Points | 1 · For You feed | 2 · Book | 3 · Booked and live | 4 · Left early: alert | 5 · Email |
|---|---|---|---|---|---|
|  |  |  |  |  |  |
| **Seller Center** | **For You + Affiliate Creatives** | **Target Collaboration** | **LIVE Manager** | **Seller Center alert** | **Seller Center Email** |
| ~30% budget idle [C] | 3 s unlocks Book [M] | Budget, slot, message | Paid only if live | Sent once, if left | One button back |

**Push, not pull:** most Thai sellers say finding creators is their main obstacle [E]; the feed brings the creator to them.

**Try it:** open the clickable prototype and tap through all six screens.

Our concept screens, sample data · C case · E Statista, A6 · M our design rule · full size: A3

05 · MEASURING SUCCESS, ROLLOUT AND ASK

# If each Rising Star earns half a top, 11.11 reaches 150% GMV.

**Brand journey** success metrics

| Brand's Pain Points | 1 · For You feed | 2 · Book | 3 · Booked and live | 4 · Left early: alert | 5 · Email |
|---|---|---|---|---|---|
| **Budget idle** ~30% today [C] | **Stuck brands who see a Rising Star clip** | **Brands who see the clip and book** | **Lives that start on time**, 5 in 10 today [C] | **Brands who left early, then come back and book** | |
| **15%** BY 4 NOV | **8 in 10** [M] BY 4 NOV | **1 in 2** [M] BY 4 NOV | **9 in 10** ON 11.11 | **1 in 4** [M] BY 4 NOV | |

## Timeline

| T−17 · 25 Oct | T−14 · 28 Oct | T−13 · 29 Oct | T−7 · 4 Nov | T−3 · 8 Nov | 11.11 | 12.12 |
|---|---|---|---|---|---|---|
| Pick 300, clips | 24-h rehearsal | Clips in For You | **Check bookings** | Shopper warm-up | **Booked and live** | **Rebook, re-rank** |

**GMV** success metrics

### BY 4 NOV · GMV FORECAST

If journey steps hit target and bookings project 11.11 at 150 [M]

→ **Go for 11.11: the bench fills niches 85% booked by 7 Nov**

### ON 11.11 · GMV REACHED · WHY IT WORKS

If each Rising Star earns half a top creator [M], 11.11 adds up to 150:

**50** Top 100 hold + **75** 300 Rising Stars × 0.25 + **25** Everyone else = **150** +50% target [C]

Prior campaign = 100. Everyone else sells ~38 today, so 25 leaves room [D]

### BY 12.12 · REPEAT GMV

If 8 in 10 brands rebook [M]

→ **Scale Rising Stars from 12.12**

**The ask** — **Keep the top's half, back the best 300 mid creators to earn half a top each, and check bookings on 4 November so 11.11 can reach 150% GMV.**

C case · D our arithmetic · M team goal, not a forecast · steps as on 4 / 5 · warm-up: Ipsos, A6 · scorecard A1–A2

APPENDIX A1 · SCORECARD, RISING STARS 300

# We judge the 300 Rising Stars like a sales team.

**North star for the whole plan:** 11.11 GMV against the +50% target [C §01]. Every goal is a team goal, not a forecast.

| Metric | What it tells the CEO | Today | Goal and day | Read in |
|---|---|---|---|---|
| GMV per traffic point | Do they sell like the top? | Mid 1.00, top 1.25 (D) | 1.25 on 11.11 | Affiliate Center |
| Sales per creator | Do they earn half a top? | Mid ~1/13 of a top (D) | Half a top on 11.11 | Affiliate Center |
| Slots booked | Are brands buying them? | ~30% of mid have a deal (C) | 85% by 4 Nov | Target Collaboration |
| Lives on time | Can brands rely on them? | 50% (C) | 9 in 10 on 11.11 | LIVE Manager |
| Deal depth vs top | Is the offer as strong? | ~15% shallower (C) | Gap closed on 11.11 | Campaign Registration |
| Content quality | Do they look like the top? | 30% lower (C) | Gap halved on 11.11 | Quality score |
| Status kept | Is the ladder working? | New measure | 8 in 10 by 12.12 | Re-rank after 11.11 |

**BOTTOM LINE** 85% of Rising Star slots booked in a niche is the trigger to add bench creators — a signal we can act on inside Target Collaboration before it shows up in 11.11 GMV.

APPENDIX A2 · SCORECARD, THE MECHANISM

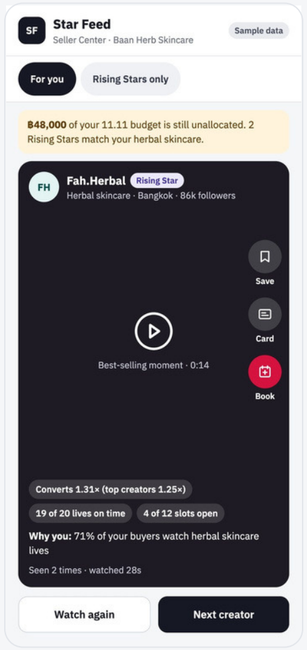

# We judge every journey step, then the 11.11 outcome.

| Metric | What it tells the CEO | Today | Goal and day | Read in |
|---|---|---|---|---|
| 0 · Budget idle | Does idle money go to work? | ~30% of SMB budget (C) | 15% by 4 Nov | Seller Center |
| 1 · For You feed | Do stuck brands see a Rising Star? | New: brands who see a clip | 8 in 10 by 4 Nov | For You + Affiliate Creatives |
| 2 · Book | Does the clip create demand? | New: clip seen → booked | 1 in 2 by 4 Nov | Target Collaboration |
| 2 · Rising Star slots | Is supply being used? | ~70% of mid unbooked (D) | 85% by 4 Nov | Target Collaboration |
| 3 · Booked and live | Do booked lives happen? | 50% on time (C) | 9 in 10 on 11.11 | LIVE Manager |
| 3 · 12.12 rebook | Will brands come back? | “Mixed” satisfaction (C §02) | 8 in 10 by 12.12 | LIVE Manager |
| 4–5 · Alert and email | Do they bring brands back? | New: left early → booked | 1 in 4 by 4 Nov | Seller Center |
| Outcome: live GMV | Did 11.11 hit the target? | Prior mega campaign (C §01) | +50% on 11.11 | LIVE Manager |
| Return on promo spend | Is platform money working? | Set at the rehearsal | ≥ the top’s on 11.11 | Affiliate Center |
| Anchor guardrail | Did we protect the top? | 20% GMV; 50% vouchers (C) | Both held to 12.12 | Daily tracking |
| Feed health | Does the feed stay watchable? | New: clip skip rate | ≤ For You, daily | For You analytics |

APPENDIX A3 · THE SCREENS, FULL SIZE

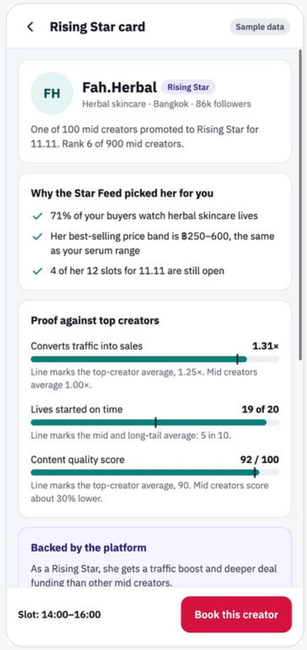

# Our Star Feed screens and the tools they live in

## Screen 1 · Discover

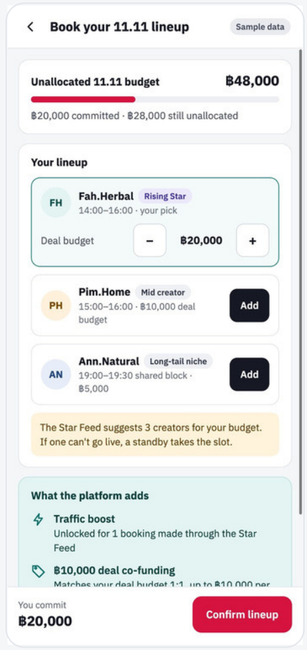

For You feed: a matched Rising Star clip; 3 s of watching shows ‘Book’

## Screen 2 · Judge

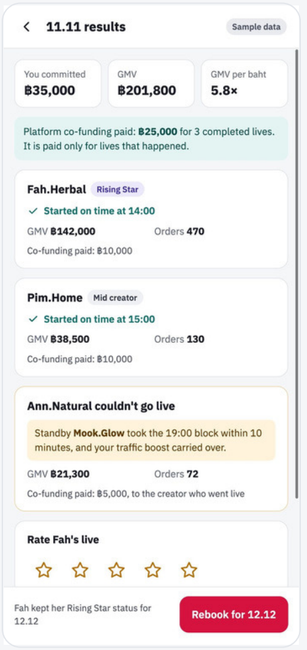

Follow-up: her results vs the top, why she matches, the budget to book

## Screen 3 · Book

Target Collaboration: a lineup with a standby; 1:1 co-funding up to ฿10,000 after the live

## Screen 5 · Results

LIVE Manager: results per creator, the standby who stepped in, a 12.12 rebook

APPENDIX A4 · THE NINE TOOLS

# Every step runs on a tool sellers already use

| Tool | What it does today | Where we use it | Source |
|---|---|---|---|
| Campaign Registration Portal | Register 11.11 products and deals | Step 1 nudge; co-funded deals | MY Seller Univ. |
| Creator Connect | Sellers find and message creators | Step 2: Rising Star clips first | Team tool list |
| Affiliate Center | Recommends creators by product fit | Ranking data; results per creator | TikTok help |
| Target Collaboration | Invites with commission and samples | Step 3: one-tap invite and standby | TikTok help |
| Open Collaboration | Any creator sells at a set commission | Cohort 3 self-serve route | TikTok help |
| Video-to-LIVE | Video ad that leads into a LIVE | Warm-up: clips push viewers in | TikTok help |
| Affiliate Creatives for Ads | A creator’s video run as a brand ad | Brand boosts the Rising Star clip | TikTok help |
| LIVE Manager | Run and track each LIVE | Step 4: on-time gate, standby swap | SG Seller Univ. |
| CRM Broadcast | Message the shop’s past buyers | Warm-up: tell buyers the live is on | Team tool list |

**BOTTOM LINE** Two items are still open: a Thai-language help page hasn’t been found, and whether Video-to-LIVE can target an affiliate creator’s own LIVE is unconfirmed — the fallback is boosting her clip as an ad.

Team tool list: Thai help page not yet found · MY and SG pages used where no Thai page exists · links A6

APPENDIX A5 · CASE NUMBERS AND OUR ARITHMETIC

# Every number, and where it comes from

| What the case says (C), our arithmetic (D) or our assumption (M) | Where | Slide |
|---|---|---|
| C · Top 100: 40% of traffic, 50% of live GMV; ~50% of slots sold 4 weeks out | T1, §02 | 1 |
| C · Mid 900: 35% of traffic and GMV; ~30% have a deal; deals ~15% shallower | T1, §02 | 1, 2 |
| C · Long tail 9,000: 25% of traffic, 15% of GMV; ~80% no attractive deal | T1, §02 | 1 |
| C · Top slots secured: ~95% of large brands, ~20% of SMBs | T2 | 1 |
| C · ~80% of SMBs: no top slot, no fallback; ~30% of budget unallocated | §02, T2 | 1, 3 |
| C · Mid and tail: 50% of lives on time; content quality 30% lower | §02 | 2, 3, 5 |
| C · Anchor brands: 20% of GMV; warned against cutting top traffic | §02 | 3 |
| C · Vouchers and subsidy each split 50% top, 50% mid and long tail | §03, T3 | 3 |
| C · Target: +50% GMV vs the prior mega campaign | §01 | 1, 5 |
| D · GMV per traffic point = GMV share ÷ traffic share: 1.25, 1.00, 0.60 | T1 | 1, 5 |
| D · Budget per creator, top = 100: Rising Star ~17, mid/tail today ~1, plan ~0.5 | T1, T3 | 3 |
| D · Sales per creator, prior campaign = 100: top 0.5, mid ~0.04; Rising Star goal 0.25 | T1 | 2, 3, 5 |
| D · Why 300: mid 35 → 70 for +50%; 70 ÷ 0.25 = 280 floor; 900 × 50% on time = 450 | T1, §01–02 | 2, 3 |
| M · Rising Star sells half a top; best 300 ~1.10× (1.05–1.20); ฿10,000 cap; dates | Ours | 1, 2, 3, 5 |

APPENDIX A6 · EXTERNAL SOURCES (E)

# Outside sources, each opened and checked

| Source | What we use | Caveat | Slide |
|---|---|---|---|
| Statista, Oct–Dec 2023 | Main affiliate obstacle: finding influencers | No exact share: “most” | 1, 4 |
| Decision Lab, Dec 2023 | 60% buy for exclusive offers and discounts | n = 702; 405 answered | 2 |
| Ipsos for TikTok, Sep 2026 | Mega-sale shoppers plan ~2.8 days ahead | TikTok-commissioned | 4, 5 |
| Khaosod, 21 Nov 2023 | 11.11 2023: affiliates drove over half of sales | Company PR figures | context |
| TikTok help, Target Collab. | Recommends by fit; commission, samples, invites | Global help page | 2, 4 |
| TikTok help, Shop Ads pages | Affiliate creatives; video-into-LIVE ad format | Seller’s own LIVE shown | 4 |

**Links:** Statista · Decision Lab · Ipsos for TikTok (Relevant Audience) · Khaosod · Target Collaborations · Affiliate creatives for Shop Ads · LIVE Shopping Ads · Co-funded campaigns (MY) · LIVE Manager (SG)

**BOTTOM LINE** Only Decision Lab and Statista are independent. Ipsos is TikTok-commissioned and Khaosod runs on the company’s own PR figures, so we treat both as directional, not proof.
